From the D.C Trincomalee
No A6-C 4977/41-42 dt 12 9 42

Requests orders of Govt on the proposal of the Paragasa minor Inl Council requesting for an additional grant of Rs 3220 towards the estimated Cost of Rs 4,400 for the Construction of a Storm water Drain at Paragasa

1) Ref is invited to GO dt 16 5 42 sanctioning an estimate for Rs 19,280 for the Paragasa Drainage scheme the Cost to be met by Govt as the local Inl Council is the proportion of 3'1 as a very special case

2) In order to enable the Inl Council to meet its quota of Rs 4820 amounting to Rs 6000 was also sanctioned vide the direction that the Cost of the Construction of the Storm water Drain be met entirely out of the Municipal funds

3) Now an estimate for Rs 4,400 for the Construction of the Storm water Drain has been prepared and it is proposed to utilise the sum of Rs 1180 remaining over out of the loan of Rs 6000 above the Municipal quota of Rs 4820 for the main drainage scheme, as Municipal quota towards the Cost of Rs 4400 for the Construction of the Storm Water Drain The Municipal Council requests that the balance of Rs 3220 may be met by Govt as an additional grant

It is also stated that it is not advisable to take up the main scheme before the completion of the storm water drain

The D.C has stated that the resources of the Mcly are limited and has merely solicited the orders of Govt on the request of the municipal Council

~~Submitted for orders~~

A Copy of the Budget of the Mcly for the year 1942-43 together with the D.C's review is put up for perusal It is seen therefrom that the Closing balance of the mcly for the current year Rs 1126

Submitted for orders

5.11.42

4) It has been definitely ordered in the G.O dated 11.5.1942 that the work in question should be financed entirely from the Mcl funds The present proposal is that the Mcl would pay a sum of Rs 1180/- out of the total estimate of Rs 4400/- and the Govt may give the balance of Rs 3220 as a grant

5) It will be seen that in this case the Govt have shown the utmost concession by paying a grant-in-aid equal to 2/3 of the estimated cost as against half paid in other

Construction of a Storm water drain - Pedagada

Serial No

cases and it would create an inconvenient precedent if the present proposal is sanctioned

(2) If it is necessary to execute the storm water drain work first before taking up the main drainage work, I think if MC be in not in a position to finance the work, then the following alternatives maybe adopted:-

1) To take up this work first & utilize a sum of Rs 4400/- out of the sanctioned amount of Rs 19280/-

(2) to put off the main drainage work to that extent - to be taken up when the municipal funds permit

(3) to give a loan of Rs 3220/- to the MC & consolidate the loan to Rs 9220/-, repayable in 20 instalments + carrying interest at 4½ %

60000 already sanctioned
3220
9220

II) Steps also for consideration whether without reference to the storm water drain, the main drainage may not be taken up & executed as otherwise a sanctioned work would get unnecessarily delayed. It is also likely that some savings might accrue in the estimate if tenders for the work are called for

Sir

C. NARAYANASWAMI NAIDU, Esqr:, B.A., B L.,
-------Secretary to the Government of Mysore,
LAW DEPARTMENT, Bangalore.

Re Hill storm drain of Pavagada town
==00==

B Sr 3-8 May 42

Adverting to Government order No L 10974-7/11 84-41-8 dated 16-5-1942 according sanction to the drainage scheme of the town and also a loan of Rs 6,000/- to enable the Municipality to towards the drainage scheme & also the cost meet its quota of cost of constructing the storm water drain at - the place etc , I have the honour to forward herewith, in original the file of records received from the President, Pavagada minor - Municipal Council and to state as follows -

'K'

The President states that an estimate for Rs 4,400/- has been received from the Sanitary Engineer, for the construction of the storm water drain to the west of the town As it was directed by Government in their order referred to above, that this work - - should be financed entirely from out of Municipal funds, the matter was referred to the Managing Committee for suggesting ways and means to finance this scheme They seem to have suggested that the excess amount of Rs 1,180/- out of the loan of Rs 6,000/- sanctioned by - Government (Municipal quota of Rs 4,820/- towards the drainage - - scheme of the town) may be treated as Municipal quota for this Hill water drain and for the balance of Rs 3,220/-, Government may be - requested to sanction an additional grant

The Municipal council at their meeting held on 28-6-1942 have resolved that the suggestions of the Managing Committee may be - - approved and that Government be requested for an additional grant of Rs 3,220/-

The resources of this minor Municipality are limited and there is no scope for further improvement The Principal sources of income are Octroi, Mohatarfa and Shandy fees. The realisations under these heads are noted below -

Octroi	Rs 1,700/-
Mohatarfa	Rs 2,132/-
Shandy fees	Rs 505/-
Total	Rs 4,337/-

With the limited resources, it may be difficult for the Municipality even to repay the loan instalment towards the drainage scheme of the town, but somehow the Council have agreed to take up the scheme and also repay the loan instalments

In this connection I may add that the Minister for Local Self-Government and Public Health has observed during his visit to this Town that the hill water drain scheme must be completed before the town drainage work is taken up and without this work being - - taken up first, it may not be possible to take up the comprehensive drainage scheme of the town

I request that necessary orders of Government may be kindly obtained in the matter

I have the honour to be,
Sir,
Your most obedient servant,

P Singaraya Setty
Deputy Commissioner,
Tumkur District
